Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village's goal was to prevent storm water contaminants from being discharged from its facilities and during its operations to the storm sewer system, and to continue to track and document municipal operations regarding maintenance and development.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Ongoing observations indicate that the Village's pollution prevention and good housekeeping procedures effectively prevented contaminants from being discharged into the storm sewer system. The Village is also conducting work on a Gin Lane drainage project that will eliminate an outfall to Lake Agawam.

C. How many times was this observation measured or evaluated in this reporting period?

			2
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village will continue to train staff, implement water quality improvement projects, and prevent discharges of storm water pollutants to its storm sewer system from its facilities and operations. The Village will continue to implement the BMPs outlined in the NYS DE Municipal Pollution Prevention and Good Housekeeping guidance document.
